

# The **5** Study Steps in neoStudy

## Step 1 – Preview

### Get an Overview of the Lesson

See how much you can understand the first time you listen. You can earn points as you answer basic questions.

## Step 2 – Listen

### Improve Listening Comprehension

Listen to each sentence many times until you understand all of the sentences.

## Step 3 – Record

### Improve Your Pronunciation

Practice saying each sentence out loud to yourself first. When you are ready, record your voice and play it back to compare it to the native speaker in your lesson.

## Step 4 – Speak

### Guide your pronunciation with neo's Speech Recognition Technology

Practice saying each sentence out loud to yourself first. When you are ready, record your voice and receive immediate feedback on how to improve your pronunciation.

## Step 5 – Review

### Reinforce what you have learned in Steps 1-4

Continue practicing and recording all the sentences until you can say them easily.

For more information on each step, follow the [neoStudy – Student Guide](#).
